Design Experience

Design Intern

HY-KO Products, Northfield, OH

June 2017 - August 2017

- developed a line of key carrying products that fit into the company's existing product line
- performed patent searches to verify intellectual property

UX/UI Contractor

Monarch Teaching Technologies, Cleveland, OH

June 2017 - August 2017

- redesigned the interface for an existing educational video game product that resulted in increased clarity and usability
- collaborated with developers to produce solutions that balanced usability with ease of implementation
- verified new ideas to product managers through interactive prototypes built in Sketch and Invision

Woodshop Assistant

2nd Shift Design, Cleveland, OH

May 2016 - August 2016

- assembled housewares products in a small, independent workshop environment
- gained a greater understanding of online marketing strategies and production planning for a small business.

Additional Experience

Gallery Attendant

Museum of Contemporary Art, Cleveland, OH

May 2015 - June 2018

- enforced museum rules and engaged patrons
- researched the artworks and artists in each exhibition in order to respond to patrons' questions
